

Yousef Omar

Software Engineer

A self-taught passionate software engineer focusing on Frontend web, love learning new technologies and forms of digital expression, highly motivated and aspiring an opportunity to prove myself.

EXPERIENCE

ITI Intensive 3 month track , Aswan — *Frontend Dev.*

JULY 2021 - OCTOBER 2021

Worked with: React-Angular-React native-Flutter-Jest-Jasmine-Git.

This track expanded my mind in a Technical and non-technical points of view, exposed to experienced developers and an amazing community which I learned alot from.

Self-study — *Web Development*

OCTOBER 2021 - CURRENT

A journey of consistent learning and self-discipline

Udacity — Web Development Nanodegree Program

Acquired Skills: HTML-CSS-Javascript-Node-Express.

Mahara-tech — Frontend Development

Finished a lot of courses on the web and freelance.

Other Resources — Software Engineering

PROJECTS

Portfolio — *Website*

Technologies: Next js-Typescript-GraphQL-GraphCMS-advanced CSS

Minimal website that shows a little about me, my journey, projects and other stuff, with a nice simple user interface.

[Source code](#) | [Live Preview](#)

Disney+ Clone — *Full-featured Website*

Technologies: Next js-Typescript-TMDB-Tailwindcss-Nextauth

Using the movies free api I made a complete application which you can search, watch trailers, and add movies to watchlist, with a modern easy to use user-interface and a lot of services.
